SUMMARY

Seasoned Senior Java Developer with over 12 years of experience in designing, developing, and maintaining large-scale Java applications and cloud-centric backend systems. I bring strong skills in core Java, object-oriented programming, data structures, multithreading, and exception handling. My work includes building Spring Boot microservices, RESTful APIs, and distributed systems, deployed on platforms like Microsoft Azure. At my current enterprise, I've taken the lead in Java microservices development using Azure services while ensuring robust API design and database integration. Mastering performance optimization and system modernization has become second nature. I'm passionate about collaboration, driving results through teamwork, and mentoring junior talent.

EXPERIENCE

Senior Java Developer

June 2020 - Present

Tech Innovations Inc.

Chicago, IL

At Tech Innovations, I lead the development of enterprise-grade Java microservices utilizing Spring Boot and cloud technologies. My role involves crafting scalable APIs and designing complex architecture while collaborating within Agile teams to deliver impactful software solutions.

- Develop high-performance microservices on platforms including Azure.
- Design and implement RESTful APIs that support various applications.
- Integrate relational databases and NoSQL options in the development process.
- Optimize legacy applications and driving refactoring initiatives for modern standards.

Java Developer

March 2015 - May 2020

Innovative System Solutions

Chicago, IL

Contributed extensively to building and enhancing web-based applications, focusing on backend functionality. Collaborated constantly with cross-functional teams to ensure technical feasibility and effective delivery of projects.

- Focused on writing clean, maintainable code across multiple modules.
- Implemented deployment strategies on AWS alongside contributing to CI/CD practices.
- Participated in architectural design discussions, providing insights for system enhancements.
- Mentored junior developers, fostering a collaborative environment for growth.

Junior Java Developer

July 2011 - February 2015

NextGen Technologies

Chicago, IL

Assisted in the development of scalable applications by coding critical components and managing server-side applications under guidance. Gained invaluable exposure to cloud methodologies and DevOps.

- Assisted in developing Java applications and wrote unit tests for key logic.
- Collaborated with class leads to document specifications and processes.
- Supported migration activities from on-premises to cloud environments.
- Engaged in peer reviews to enhance application performance and reliability.

PROJECTS

Enterprise E-commerce Platform

December 2022

I spearheaded a cloud-based e-commerce solution that enhanced transaction speeds. Utilized Spring Boot and Azure Functions, significantly improving user experiences and backend efficiency.

Internal Workflow Automation Tool

March 2023

Led a team to implement an internal tool built with Java technologies, which streamlined operations and reduced overhead costs by automating manual processes.

PORTFOLIO

Title: Professional Portfolio

Link: <https://davidandersonportfolio.com>

Description: A collection of significant projects showcasing my expertise in Java, cloud technologies, and system design.

LEADERSHIP & AWARDS

- Top Performer Award 2022 for outstanding contributions to project success.
- Leadership Excellence Award in 2021 for exceptional mentorship of junior developers.

EDUCATION

Master's Degree in Computer Science

2011

University of Illinois at Chicago GPA: 3.8

Chicago, IL

Coursework: Data Structures, Software Engineering, Cloud Computing, Database Management

Bachelor's Degree in Computer Science

2009

University of Illinois at Chicago GPA: 3.6

Chicago, IL

Coursework: Algorithms, Web Development, Network Security, Object-Oriented Programming

CERTIFICATIONS

- AWS Certified Developer 2021
- Oracle Certified Professional, Java SE 11 Developer 2022

TECHNICAL SKILLS

- **Programming Languages:** Java, SQL, HTML
- **Frameworks:** Spring Boot, Hibernate, JPA
- **Cloud Technologies:** Azure, AWS, Google Cloud
- **Development Tools:** IntelliJ IDEA, Eclipse, Visual Studio Code
- **Containerization:** Docker, Kubernetes, OpenShift
- **Version Control:** Git, SVN, Bitbucket
- **Build Tools:** Maven, Gradle, Ant
- **Testing Frameworks:** JUnit, Mockito, Cucumber
- **Deployment Technologies:** Heroku, Jenkins, GitHub Actions
- **Methodologies:** Agile, Scrum, Waterfall

SKILLS

- Java
- Spring Boot
- Microservices
- RESTful APIs
- Azure Services
- SQL
- NoSQL
- Git
- Docker
- CI/CD
- JUnit
- Maven
- Agile Development
- Event-Driven Architecture
- Multithreading
- Exception Handling

PROFESSIONAL AFFILIATIONS

- Member of the Java Developers Association dedicated to promoting open-source technology.
- Active contributor to local tech meetups, discussing advancements in cloud technologies.

LANGUAGES

- English (Native)
- Spanish (Intermediate)

ADDITIONAL INFORMATION

Work Status : Authorized to work in United States. No sponsorship required.
